Jewish Societies All Through the City Will Help to Swell the Fund-The Church of Our Father and the Work of the Universalists in the National Capital.

The Washington Synagogue, on Eighth street, between H and I northwest, is the The Church of Our Father and the Work oldest Hebrew congregation in the District In 1849 a small number of the early Jewish settlers founded the congregation, which now | and Thirteenth streets northwest, is the one numbers 230 heads of families and includes church of the Universalist faith in this city.

Congress of which the late Gen. Banks was is a branch, and Dr. Rogers, the pastor of the Speaker, and the congregation worshiped in Church of Our Father, has charge of this as Speaker, and the congregation workliped in a building on Fourth street, near E, for a mumber of years. The organization grew showly, and it was not till 1863 that the present building was purchased from the First Congregational Church. Previous to this purchase it had been used as a hospital. The church of Our Father, has closely one in New England, is growing in the West, and is very strong on the Facilic count. It scarcely exists in the South.

The Church of Our Father, has clarge of this as well. The Genomination is a strong one in New England, is growing in the West, and is very strong on the Facilic count. It is a clarge of this as well. The Genomination is a strong one in New England, is growing in the West, and is very strong on the Facilic count. It is a clarge of this as purchase if had from used as a nospetal. The structure is too small for the present membership, and it is the intention to erect a new building. At the last maching of the bourd of managers it was resolved to proceed with the raising of funds for the building of the new

In 1869 a portion of the congregation receded on account of some reforms introduced into the synagogue, and the Sixth-sixest congregation was thus formed. This congregation is known as the orthodox, and the Washington as the reform congregation. The differences between the two congregations are on minor matters, though these are the universal differences between those two, and the reform in the Washington Synagogue is of a very conservative nature. The immediate cause of the break was the formation of a choir and the cutting in of an orran and is of a very conservative nature. The immediate cause of the break was the formation of a choir and the putting in of an organ and family pows. These changes were also followed by the modernizing of the ritual. The orthodox Jews make use of the ancient litary, which has some down from the middle ages. Himalistic worship was first established under the Babylonian captivity, when the enildren of largel were far from the temple of Jerisalem, where alone it was lawful to offer sacriflees. After the dispersion of the Jews and their exodus from Falestine the ritualistic form of worship was adopted and is the form used by them to-day. The reformers also use the wornautiar, and the radical reformers hold that services can be held on Sunday. The conservative reformers opposed this insponsation.

What Their militures.

"The lideas held of our belief in a redeemer by outsiders are many," said Babbi Stern.

"When the Jew was driven from his own country, and when he was to return to the Holy Land and a return to the holy shad of his birth. The reformers now look for a spiritum redeemer was held by many, if not all. The Jew longed for his native land and for the holy shad of his birth. The reformers now look for a spiritum redeemer, Even the Bussian and often we help send some countryman back to the land of his birth. Services are held in the synagogue each Friday evening at 7:30 o'clock, and Saturday morning at 10 o'clock, Saturday, the Jewish Sabbath, is observed in each family. All absaturbly unnecessary work is left undone. The exigencies of business require that stores should be kept open, and Sunday, in this respect, is observed as the day of rest. The Sunday-school is held on this day instead of hymns, reading the law and the preaching of a sermon. Some parts of the service are in Hotrew. No remembrance of the temple worship is retained, though the table wears a cap and gown. These symbols have simply been berrowed from other churches and are not fashioned at all after the garments worn by the prisans of the temple, in the Washington congregation it is left to the individual taste of the members whether the head is covered or not during the service.

The Sunday-secol as before stated, meets

The Sunday morning at 10 o'clock. It is made up of the children of the congregation between eight and fifteen years of age. The Bitle and catechism are studied and the Hebrew language taught. At least enough of it so that the scholar can understand the ritual and the reading of the law. One half hour is given to this study each Saturday and Sunday and in four or five years the scholar has learned enough of the language to understand all that is necessary. The children are not pressed any, because all of this is in addition to the In the study of Jewish instory and ethics. This course is not obligatory. CONCERNS OF THE DISTRICT.

Streets Lamps Will Be Lighted Every Night Except When the Moon Is Faithful to Her Contract.

President Winship and Superintendent Letich, representing respectively the George-town and Washington Gastight Companies, had a conference yesterday with the Commissioners concerning the proposed change in the schedule for street lighting. The subject was discussed in detail, but no decision was reached, the matter being deferred until Com-missioner Truesdell's return on Monday.

"The idea," said Capt. Powell yesterday, "Is to give as much street lighting as possible Heretofree the arrangement has been to omit lights on moonlight nights, and when from indications at 4 o'clock in the afternoon it is apparent that lights will be needed we issue a special order. We have now reversed the a special order. We have now reversed the rule. DR. SHADE'S DISCOVERY

Por Consumption -- Investigation Reopened.

By Request Persons Cured Outside of the District of Columbia.

It must have been noticed by all who have been reading of Dr. Shade, 1232 Fourteenth street, and his success as a lung specialist, which was very apparent to The Trans reporter, that all the seven persons interviewed have been enjoying their accustomed health for a year or two, since cured by Dr. Shade. This is a very important fact to bring out in clearing up our investigation of the remarkable success in arresting the dread disease, consumption, which has up until the present baffled the skill of the medical world. We are constrained to say with Prof. P. Brett

consumption, which has up until the present baffled the skill of the medical world. We are constrained to say with Prof. P. Brett Morgan, professor of lung diseases in the San Francisco Medical College, "Dr. Skads has made the greatest discovery of the century." While many people have been cured during the last twelve months, it has been thought by those who have the investigation in charge that the propertic number "seven" who have been reported, will suffice to prove beyond all doubt that Dr. Shade has at last proven his ability to cure consumption.

In due time we will report other citizens of the District cured, but for the present will narrate a few interviews had with persons cured outside of Washington City. Dr. Shade has completted his plan of "absent treatment" so he can treat consumptives unable to visit him. The first case interviewed by Tire Times man, who has been having a splendid outing on his wheel up in Pentsylvania—is H. C. Carbaugh, esq., Blacks Gap. When we called upon Mr. Carbaugh and told him who we were and our business he was seemingly much delighted, and remarked that he was glad to tell me all about his case, which he did. He said: "I had the grip three years ago, followed by double pneumonia, I was very bad off. My lungs becoming involved, my case was pronounced to be the worst form of consumption by eleven doctors during my long illness. I fived in the West at the time. My sister here in the East wrote and told us of Dr. Shade's success in curring consumption.

"I was confined to bed at the time, having

east, and a fire hydrant be erected.

That the public hydrant at the southeast corner of Sixth street and Florida avenue be removed, and also public hydrant at Thirteenth at tenth and C streets southwest.

That a water main be laid in Thirteenth street, between Kenyon street and Kenesaw avenue, botween Sherman avenue and Thirteenth street.

That Parick O'Hare be appointed watchman at the engineer stables, vice William Corbett, relieved on account of physical disability.

A. B. Barker, whose merry-go-round on H street, between Sixth and Seventh streets northeast, was objected to by a large number of heighboring residents, and for which a renewal of license has been refused by the Commissioners, presented a petition yesterday for a reconsideration of the case, under the right Jeans on, and can say that I fee obsert has done wonders for me, for I enjoy life now again. I must say that Dr. Shade has done me more good than all the doctoring I had done for twenty-three years, for I had been suffering with weak lungs and a I had been suffering with weak lungs and a cough for over twenty years. We live very plain here in the country but you are welcome to stay over night," which I did. He could not get done talking about Dr. Shade and asking questions as to the doctor's health, prosperity, family, etc. I was delighted with the family and the good old-fashloned "mush and milk." Mr. Carbaugh has been a lumber and timber man and is still busily engaged in doing some contracting, they told me. At all events he was up and gone to work before I came down stairs in the morning, which he came down stairs in the morning, which he id me he would have to do before we re tion me ne would have to do before we re-tired for the night. He has become quite wealthy and knows how to manage his for-tune. The next place of interest I struck was Cearfoss, Md., which I shall put off for next Sunday's issue of The Times. J. W. B.
